Professional Summary

Results-driven Software Engineer with experience in designing, developing, and optimizing applications. Strong background in Python, JavaScript, React, Django, and SQL. Adept at debugging, implementing APIs, and collaborating with cross-functional teams. Passionate about building scalable, high-performance solutions.

Skills

- Programming Languages: Python, JavaScript, TypeScript
- Frameworks & Libraries: React.js, Django, Node.js
- Databases: SQL, PostgreSQL, MongoDB
- Tools & Platforms: Git, Docker, AWS, REST APIs, CI/CD
- Development Methodologies: Agile, Scrum, TDD
- Soft Skills: Problem-solving, Team Collaboration, Effective Communication

Work Experience

Software Engineer | ABC Tech Solutions | Jan 2022 - Present

- Developed and maintained scalable web applications using React.js, Django, and PostgreSQL.
- Designed and optimized RESTful APIs, improving system performance by 30%.
- Implemented CI/CD pipelines, reducing deployment time by 40%.
- Led a team of 4 developers in Agile Scrum environment, ensuring timely feature delivery.
- Identified and fixed critical bugs, enhancing system reliability and user experience.

Software Developer Intern | XYZ Innovations | June 2021 - Dec 2021

- Assisted in building a customer management dashboard using React.js and Flask.
- Wrote unit tests to improve code quality and reliability.
- Optimized SQL queries, reducing database response time by 20%.

Education

Master of Computer Applications (MCA) - Computer Science

Kumaraguru College of Engineering | 2021

Certifications

- AWS Certified Developer - Associate

- Python for Data Science and Machine Learning (Coursera)

Projects

1. AI-Powered Resume Analyzer (Personal Project)

- Built an ATS Resume Analyzer using Natural Language Processing (NLP) and Python.
- Developed an intuitive UI using React.js, allowing users to upload and analyze resumes.
- Implemented AI-powered resume rewriting and ATS scoring for candidate shortlisting.

2. Cryptocurrency Portfolio Tracker (Personal Project)

- Developed a crypto portfolio tracker using React.js, Django REST Framework, and PostgreSQL/MongoDB
- Integrated CoinGecko and Binance APIs for real-time price updates.
- Implemented user authentication with Firebase Auth/JWT.

Additional Information

- Open to relocation
- Fluent in English
